

Rian Iregho

Software Engineer

Passionate about programming, dedicated and innovative software engineer with 5 years of experience, in developing and designing high quality software applications. And also eager to learn new experiences.

Work Experience

1. Software Engineer

Telkomsel - (2021 - Present)

Telkomsel is biggest Telecommunication and Internet provider in Indonesia, I am associated as Lead Software Engineer with focus in Frontend, The lists of activity as Lead Software Engineer in Telkomsel as below :

- Leading frontend team by implementing Agile with SCRUM methodology.
- Designing and Architecting the system of Frontend to suit the System Requirement and Oversee project strategies and processes.
- Design product upgrades and improvements and maintenance technical documentation
- Not only Management, I also dive into coding same like other members, with React JS, React Native, Next JS, Material UI, Tailwind and ShadCN
- Integrated API provided by NextJS using React TanStack Query

2. Software Engineer

Detikcom, Transmedia - (2020 - 2021)

Transmedia is one of online Media and Television company in Indonesia, I work as Senior Software Engineer who handle Backend and Frontend, but mostly I handle frontend side.

- Providing API with Python Django and GraphQL
- Slicing UI into code using React JS and React Native, with Tailwind and ShadCN UI for styling
- Designing, building, and optimizing the client-side of web applications, and make sure it is in responsive behavior.
- Integrate the API using GraphQL Client for the live comment section of Detikcom live streaming.

3. Software Engineer

GIC Trade, GIC Indonesia - (2018 - 2020)

GIC Trade is online Forex and Cryptocurrency trading company, which run with Blockchain Technology, I was associated as Backend Engineer at the First Year and move to Frontend at the second year, here is what I have done in GIC:

- Providing API with Python Django and GraphQL
- Slicing UI into code using React JS and React Native, with Tailwind and ShadCN UI for styling
- Designing, building, and optimizing the client-side of web applications, and make sure it is in responsive behavior.
- Integrate the API using GraphQL Client for the live comment section of Detikcom live streaming.

Education

Information Technology

Mikroskil University

Bachelor's Degree (2022)

Getting college of Information Technology enabled my self into my passion, it is programming, almost 4 years in university and learn many things about Information Technology, Community and Leadership made me ready to face the world of modern tech.

Skills

As a Senior Software Engineer, I have no hesitation in saying I capable in everything in Tech, as long as it has the documentation. But, to make it specific, here is the most often used technology of me :

React JS	React Native	Next JS
Redux	React TanStack	Tailwind
Material UI	ShadCN	Laravel
Postgres	MySQL	MongoDB
Node JS	Nest JS	Typescript
Graph QL	Blockchain	Docker

Language

I speak English and Bahasa Indonesia, and a bit of Chinese Hokkien, Cantonese
